Subject: Woodland Planting at Leahaugh
Date: 30 September 2022 10:05:17
Attachments: Leahaugh Design Map Draft3.pdf

Hi Barbara
Following our phone call I attach a map of the proposed woodland planting at Leahaugh. This is a draft plan after bird, vegetation peat and archaeological surveys have been carried out and some limited consultation with local residents. I would be grateful if you could pass it round to interested locals and come back with any comments they may have.
In summary the planting is:

	Ha	%
Sitka spruce	98.53	38.2
Norway spruce	10.69	4.1
Native broadleaves	44.49	17.2
Total trees	153.71	59.5
Open ground	104.5	40.5
Grand Total	258.21	100

Please give me a call if you have any questions.

I am also preparing a draft woodland design at Roan Farm for Buccleuch Estates as well. I will try to get the first draft of this to you before the next community meeting.

Many thanks
Stephen Adlard
