Good morning

I hope that you are well. Please see below details of the consultation - [How we look after our Roads, Bridges and Lighting](#)

Overview

We (Roads Asset Management Team) are looking to shape the future of the road service delivery through developing a set of objectives which we'll use to influence our planning and delivery over the next 5 to 10 years.

The objectives will help us prioritise and allocate our spending of the road maintenance budgets we have allocated to us. As part of the development of the objectives, we want to understand what matters most to the people who rely on our road network, so we can consider this in our decision making and planning.

This short survey will help us to understand what matters most to road users and communities in our area. Your support would be greatly appreciated.

The activity is now open until 17 December 2023.

Attached is the QR code. The survey can also be accessed by following this link:
